

Wayne Chabre – Walla Walla, WA

“A Delicate Balance”

Sculptural Style: Copper, bronze and glass interior and exterior functional sculptures depicting realistic subjects in a minimalist way. Artists Statement: I make art to say things with my hands that I can't easily express in words. I take prosaic subjects and give them more than everyday stature. Artwork should be a daily experience for people that gives pleasure and softens the fierceness of life. Chabre has placed many public sculptures throughout Oregon and Washington.
